Analysis

Note: Since this bill is sponsored by the Board and, therefore, the Board is familiar with the legislative changes proposed in the bill, only the sections that staff has identified as discussion items are being addressed in this analysis.

Section 2071

Existing law sets forth that the Division of Licensing of the Medical Board shall adopt and administer regulations that establish standards for technical support services that may be performed by a medical assistant, and that the Division of Licensing shall request recommendations regarding these standards from professional associations, as specified, and other boards, as specified. The Physical Therapy Board is identified in Section 2071 as the Physical Therapy Examining Committee and the California Physical Therapy Association is identified as the California Chapter of the American Physical Therapy Association.

The proposed amendment in this bill would update the name of the Physical Therapy Examining Committee to the Physical Therapy Board of California and update the name of the California Chapter of the American Physical Therapy Association to the California Physical Therapy Association.

In Legislative Counsel’s drafting of the bill, “Division of Licensing” was replaced with “board,” “Department of Health Services” was replaced with “Department of Public Health,” and the term “physicians” was replaced with “physicians and surgeons,” in addition to the proposed revisions the Board submitted. It is recommended this section
be revised to eliminate the changes in regards to the Division of Licensing within the
Medical Board.

Section 2603.5, subdivision (a)(2)

Existing law provides the qualification requirements for public and professional
members of the Board. Each professional member shall be licensed by the Board and
be practicing for five years, and one of the professional members shall be involved in
the education of physical therapists.

The Board proposed to repeal existing Section 2603.5, and then add new 2603.5, which
also provides the qualification requirements for public and professional members of the
Board; however, the new section includes additional and more specific requirements.
Physical therapist members of the board shall meet all of the following requirements: be
a resident of California, possess an unrestricted license, and have been licensed and
practicing in California for at least five years.

Sections 2630 and 2630.3, set forth it is unlawful for anyone to hold himself or herself
out as a physical therapist or physical therapist assistant unless licensed by the Board.
Both sections require a person to hold a valid, unexpired, and unrevoked license to
practice, or assist in the practice of, physical therapy in California.

Section 2630.5, subdivision (g) provides licensure exemption for a physical therapist or
a physical therapist assistant who holds a current, valid, and unrestricted license in
another jurisdiction of the United States to practice in California for no more than 60
days following a governmentally declared emergency in his or her residence.

As in Section 2603.5, subdivision (a)(2), Section 2630.5, subdivisions (c-e) provides
licensure exemptions, as specified, for a physical therapist that holds an unrestricted
license in another jurisdiction of the United States.

In looking at these other sections, is “unrestricted” the appropriate term for the intent of
Section 2603.5, subdivision (a)(2)?
In lieu of addressing each section individually, please refer to the above information for discussion as to which term(s) are appropriate for each of the following sections regarding the required licensure status:

- 2603.5(a)(2)
- 2630
- 2630.3 (a-b)
- 2630.5(c-f)
- 2630.5(g)

**Licensure and Renewal Requirements in Regulation (Sections 2635-2653 in this analysis)**

Legislative Counsel advised against moving all licensure and renewal requirements to regulation cautioning it may be in violation of the authority delegated specifically to the Legislature by the Constitution. The proposed revisions, as adopted by the Board, which moved all licensure and renewal requirements to regulation for the following sections were removed from SB 198, and the following replace those proposed revisions:

**Section 2635**

Existing law sets forth every applicant for licensure by the Board shall, at the time of application, be over eighteen, not addicted to alcohol or controlled substances, have completed training required by Section 2650\(^1\), and not have committed any acts constituting grounds for denial under Section 480\(^2\).

There will be no change to existing law.

**Section 2636.5**

Existing law provides a license may be issued without a written exam if the applicant is, at the time of application, licensed as a physical therapist is another state or district of the United States, and he or she has passed the national licensing exam; he or she is a graduate of a physical therapist education program approved by the Board, or has met

---

\(^1\) Minimum educational requirements for Board approved physical therapist programs.  
\(^2\) General Business and Professions Code section that gives boards the authority to deny a license if an applicant was convicted of a crime; committed a dishonest act to benefit himself or herself, or to injury another; or, committed any act that, if done by a licensee, would be grounds for license suspension or revocation, including knowingly providing false information on his or her application for licensure, if that act substantially relates to the qualifications, functions and duties of the profession.
the requirements of Section 2653\(^3\); he or she files an application pursuant to Section 2632\(^4\), and he or she meets the requirements of Sections 2635\(^5\) and 2650\(^6\). Existing law also sets forth that if the application is based on a certificate issued by another physical therapist licensing authority, the Board may require the applicant to pass an oral exam and for the applicant to submit a statement of past work activity, and provides authority for license applicant status to be issued to applicants applying from out-of-state, if they hold a current license in another jurisdiction of the United States pending the issuance of their license. Existing law requires the Board to notify applicants of termination of license applicant status under this section by certified mail, returned receipt requested.

This bill would add physical therapist assistants to Section 2636.5 as the current authority contained within Sections 2655.71\(^7\) and 2655.91\(^8\) is being repealed. This bill would eliminate reference to registration, identifying only the issuance of licenses; Section 2632\(^9\) as Section 2632 is repealed; and, the authority for the Board to require an oral exam from an applicant licensed out-of-state. This bill would also eliminate the specification of direct and immediate supervision leaving this to be further defined in regulation, and would eliminate the requirement for the Board to notify applicants of termination of license applicant status under this section by certified mail, returned receipt requested.

Issues

1. In subdivision (a)(2), Sections 2639.1 and 2654 were added when adding physical therapist assistants to this section; however, it is recommended these sections be eliminated as applicants for licensure as a physical therapist applying either through the equivalency pathway or as a “dropdown” from a physical therapist application based upon education obtained from a program not

---

3 Licensure requirements for applicants who were issued a diploma from a physical therapist program that is not approved by the Board and is not located outside the United States.

4 Authority for the Board to issue all licenses for the practice of physical therapy, except as provided in Section 164 [authority for the Director of DCA to determine the form and content of licenses], and requires that each application be accompanied by the application fee as prescribed by the Board and a statement under oath of the facts entitling the applicant to receive a license with or without an exam.

5 General requirements for licensure.

6 Minimum education requirements for Board approved physical therapist programs.

7 Application requirements for out-of-state physical therapist assistants.

8 License applicant status for out-of-state physical therapist assistants to assistant in the provision of physical therapy pending the issuance of their license.

9 Authority for the Board to issue all licenses for the practice of physical therapy, except as provided in Section 164 [authority to the Director of DCA to determine form and content of licenses], and requires that each application be accompanied by the application fee as prescribed by the Board and a statement under oath of the facts entitling the applicant to receive a license with or without an exam.
approved by the Board and outside the United States do not receive license applicant status pending the issuance of his or her license, or at all.

2. In subdivision (c), it is recommended to add physical therapist assistant in the fourth line where it states, “[…] perform as a physical therapist under the supervision of a physical therapist licensed in this state.” This provides physical therapist assistants who have graduated from an approved physical therapist assistant program and who holds a current license in another state to receive license applicant status pending the issuance of a license.

Section 2639.1

Section 2639.1 is a new section number, which would have established the authority for applicants to apply based upon education and experience rather than graduation from an approved program, or a non-approved program outside the United States. The revision submitted set forth that the applicant must meet all the requirements as established in regulation. As stated above, Legislative Counsel expressed concern about this; therefore the language was amended to include the same general application requirements required in Section 2635 – at the time of application, be over eighteen, not addicted to alcohol or controlled substances, have completed training required by Section 2650\(^\text{10}\) and not have committed any acts constituting grounds for denial under Section 480\(^\text{11}\).

Issues

Since Section 2635 sets forth that all applicants must meet the specified requirements of the section, it may not be necessary to include these requirements in the amended Section 2639.1. Alternative language is as follows:

A person having, in the opinion of the Board, equivalent training and experience as that which is promulgated by the Board in regulation and who meets the requirements of Section 2635, may apply for licensure as a physical therapist assistant.

\(^{10}\) Minimum educational requirements for Board approved physical therapist programs.

\(^{11}\) General Business and Professions Code section that provides boards the authority to deny a license if an applicant was convicted of a crime; committed a dishonest act to benefit himself or herself, or to injury another; or, committed any act that, if done by a licensee, would be grounds for license suspension or revocation, including knowingly providing false information on his or her application for licensure, if that act substantially relates to the qualifications, functions and duties of the profession.
Section 2644

Existing law, Section 2684, provides that, notwithstanding Section 2422\(^\text{12}\), any license or approval for the practice of physical therapy shall expire at midnight on the last day of the birth month of the licensee or holder of approval during the second year of a two-year term, if not renewed. Existing law prescribes the following renewal requirements: submit the renewal form required by the Board, pay the prescribed renewal fees, submit proof of completion of continuing competency, and disclose misdemeanor or other criminal offenses, as specified.

Existing law allows a period of five years after the license expiration date in which a licensee or holder of an approval may renew his or her license upon paying all accrued renewal fees and meeting all other renewal requirements.

The proposed revisions renumbered Section 2684 to Section 2644. This bill eliminates reference to Section 2422\(^\text{12}\), and updates the reference to the continuing competency requirements from Section 2676 to Section 2649. This bill eliminates subdivision (c) of Section 2684 (proposed Section 2644) regarding the renewal of an expired license, and adds it to Section 2646.

Section 2646

Existing law, Section 2684, subdivision (c), allows a period of five years after the license expiration date in which a licensee or holder of an approval may renew his or her license upon paying all accrued renewal fees and meeting all other renewal requirements.

This bill, as stated above, moves subdivision (c) of Section 2684 to Section 2646, and updates the section of reference regarding the renewal requirements. This bill adds to Section 2646 a specified renewal date, which is when the renewal application is received, when all applicable renewal fees are received, or on the date the delinquency and penalty fee, if any, are received, whichever occurs last. Moreover, the license effective period is specified as in effect through the expiration date set forth in Section 2644 which next occurs after the effective date of the renewal, when it shall then become expired if it is not renewed. These added provisions are currently in the Physical Therapy Practice Act by reference to Medical Board’s renewal statutes (Article 19 [commencing with Section 2420]). The change made to this section to address the concerns regarding moving renewal requirements to regulation was, instead of

\(^\text{12}\) Medical Board statute which states all licenses shall become invalid at midnight on the last day of February of each even-numbered year if not renewed, and to renew a license, a licensee shall submit the renewal form required by the Board with the prescribed renewal fee.
referencing requirements in regulation, the reference is to the requirements set forth in Section 2644.  

Section 2647  

As stated above, the provision added as Section 2647 regarding the requirement to reapply if a licensee fails to renew within five years is in the Medical Board’s renewal statutes and referenced in the Physical Therapy Practice Act. The bill adds Section 2647 specifically adding to the Physical Therapy Practice Act that if a licensee fails to renew within five years, he or she must reapply, rather than referencing Medical Board’s statute. The change made to this section to address the concerns regarding moving renewal requirements to regulation was, instead of referencing requirements in regulation, the reference is to the Article 3 in the Practice Act which sets forth the application for licensure requirements.  

Section 2653  

Existing law set for the licensure requirements for a physical therapist applicant who received a diploma from a physical therapist program not approved by the Board and that is not located in the United States.  

This bill adds that an applicant applying under this section must demonstrate English proficiency by achieving a score specified by the Board on the Test of Spoken English (TSE), and specifies the applicant shall meet the educational requirements set forth in Section 2650, subdivision (a)(2). This bill also specifies the applicant must pass the licensing exam prior to commencing the 9-month clinical service period.  

Issue  

The Test of Spoken English (TSE) is now referred to as the Test of English as a Foreign Language (TOEFL); therefore, the name of the exam needs to be updated.  

Section 2639  

Existing law provides that an every graduate of an approved physical therapist education program who has filed an application with the Board for the first time may, if authorized by the Board, practice as a “physical therapist license applicant,” as specified.  

This bill would establish that an applicant who graduates from a physical therapist or physical therapist assistant school may practice as a physical therapist license applicant or a physical therapist assistant applicant, as appropriate, and as specified, for 120 days pending the results of his or her licensing exam. This bill identifies who shall be
considered a graduate and sets forth, in subdivision (c) that an applicant applying pursuant to Section 2636.5\(^{13}\) may be issued license applicant status under the provisions of the section.

**Issue**

Subdivision (c) is not necessary as Section 2636.5 already specifies an applicant applying based on his or her out-of-state license may be granted license applicant status pending the issuance of a license. Including the authority to grant license applicant status in Section 2636.5 is more accurate than the reference in Section 2639 because Section 2639 refers to the requirements of a licensee required to take the licensing exam and, therefore, states “pending the results of the first licensing exam administered,” which is not appropriate for reciprocity applicants.

**Section 2648**

Existing law, Business and Professions Code section 114.3 requires every board under the Department of Consumer Affairs to waive renewal requirements, including fees and continuing competency, if the applicant is a member of the military and called to active duty, as specified. Section 114.3 requires that the license notify the Board within sixty days of discharge from active duty, and provides the licensee six months to complete the renewal requirements, although the licensee cannot practice in California during this time.

The proposed revisions add Section 2648, which provides the Board authority to exempt members of the military who are called to active duty from renewal requirements. The licensee shall become liable for payment of the current renewal fee upon discharge from active duty and shall have 60 days to pay the fee before a delinquency fee is charged. This section does not exempt the licensee from meeting the continuing competency requirements.

**Issue**

The current general provision allows the licensee six months to complete all renewal requirements, whereas the Board is proposing to require the licensee to pay the current renewal fee within sixty days before a delinquency fee is charged. It is recommended the proposed revision be amended to reflect current law allowing the licensee six months to pay the renewal fee before a delinquency fee is charged.

---

\(^{13}\) Reciprocity applicants.
Section 2660

In the proposed revisions, three new violations were added to Section 2660, creating three new subdivisions – violations of Business and Professions Code sections 650\textsuperscript{14}, 651\textsuperscript{15} and 654.2\textsuperscript{16}. Legislative Counsel made a violation of these sections one subdivision.

Section 2660.2

Existing law provides that the Board, in lieu of filing or prosecuting a formal accusation against a licensee, may upon stipulated settlement or agreement by the licensee, issue a public letter of reprimand (Section 2660.3). Existing law also provides the Board the authority to refuse a license to any applicant guilty of unprofessional conduct or sexual activity referred to in Section 2660.1\textsuperscript{17} (Section 2660.2).

This bill adds that the Board may require training, education and cost recovery in the public letter of reprimand (Section 2660.3). Additionally, this bill provides that the Board can issue a public letter of reprimand, as specified, to an applicant that may also require training, education and cost recovery (Section 2660.2).

Issue

Legislative Counsel initially had some concerns with this section, so it was refined to clarify the intent of the provision; however, in subdivision (a), the reference to 2660.3 remains, which is not necessary with the addition of subdivision (c). It is recommended the language added to subdivision (a) be eliminated.

Support and Opposition

Support

Physical Therapy Board of California (Sponsor)

---

\textsuperscript{14} Prohibition of referring patients for profit.

\textsuperscript{15} Prohibition against false advertising.

\textsuperscript{16} Requirement to disclose beneficial interest and notification to patient that he or she may choose to another provider of that service, if he or she wishes.

\textsuperscript{17} Sets forth a patient or client is presumed to be incapable of giving free, full, and informed consent to any sexual activity, as specified.
Opposition

California Chiropractic Association opposed this version of the bill because of the scope language; however, at the hearing Senator Price informed the Committee the scope language will be removed, and the CCA indicated it no longer opposed the bill with that amendment.
