   (C) 2005 Rulemaking Calendar

Ms. Marco reported on the 2005 Rulemaking Calendar included in the agenda book and identified the regulations that have been carried over from 2004 along with the new regulations for 2005.

Ms. Marco explained the additional handouts on the Notice to Consumers, Cite and Fines, and Name Identification. These have been sent to the Office of Administrative Law (OAL); however, the Board can still choose to not move forward with these proposed regulations.

The Board directed staff to explore if the Board has the authority in statute to require physical therapists to place a “Notice to Consumers” in their physical therapy practices for consumers. If the Board does not have
statutory authority then the Board will need to decide if this language should be forwarded to the task force to include in their rewrite of the Physical Therapy Practice Act.

Ms. Marco explained the Citation and Fines regulation has been added again to the 2005 Rulemaking Calendar due to the memo the Board received from DCA indicating the statutory authority on Citations and Fines was increased to $5,000. Additionally the Board had directed staff to reduce the record retention from seven to three years. She explained each Board has the discretion to decide if they would like to increase the maximum amount a fine can be imposed up to $5,000 and to reduce the record retention of a citation.

Moved by James Turner, Seconded by Lorraine Kimura to direct staff to pursue with reducing the length of time for the record retention on a citation from seven to three years and to not increase the citation fine to $5,000. Vote: 6-0. Motion carried.

Ms. Marco explained the problem staff is having with licensees calling in and not knowing whether a name means first and last name or just last name. This has been brought up for the Board to decide if they want to clarify the “name” in the regulation.

Mr. Miller after reviewing Section 680 of the Business and Professions Code determined that the language is meant for the full name as indicated on the license.

The Board does not feel clarification of “name” needs to be pursued based on Mr. Miller’s definition on Section 680 of the B&P Code, which indicates full name.

Ms. Marco identified the regulations that are in black on the 2005 Rulemaking Calendar are new regulations that have been added. She requested if the Board would prioritize which regulations they would like staff to work on first.

Ms. Wilson expressed her frustration with the Infection Control regulation. Mr. Hartzell requested if members could send staff their standards on Infection Control. Ms. Wilson indicated she will forward her information to staff again along with Ms. Woodrow and Ms. Kimura. Mr. Hartzell indicated he will need to consult with Mr. Miller to define what gross negligence is and what the community standard is regarding Infection Control.

This meetings primary focus is to discus allowing foreign educated physical therapists the opportunity to apply for professional courses at the physical therapy programs once their physical therapy education has been deemed deficient by the Board. The Board recognizes that if a foreign educated physical therapist has deficiencies in their professional education it is extremely difficult for these individuals to satisfy their deficiencies in order to qualify to sit for the physical therapy licensure examination.

Since the credential evaluation agency was unable to verify the exact number of Elisabeth Brown’s Clinical Education hours, staff will ask Ms. Brown to submit a Work Verification form from the facility that she worked at in Colorado. If she has worked a minimum of 800 hours as a licensed PT in Colorado, she will have no deficiency in Clinical Education, but she will have to satisfy her deficiencies in General Education.

Marviflor Maraveles doesn’t meet the minimum qualifications for licensure as a physical therapist. The Board will close her application, but she may reapply if/when she meets the minimum qualifications for licensure.

Michelle Maglasang needs to satisfy all Professional Education deficiencies listed on the front page of the credential evaluation report, including Prosthetics & Orthotics.

Staff needs to contact ICD for further clarification of Aneta Franek’s credential evaluation report. The Board would like to know who, specifically, granted Ms. Franek’s Master of Rehabilitation. Was it a school of Physical Therapy, or a school of Physical Education? And, where exactly, did Ms. Franek complete her Clinical Education?

Ann John’s application will be extended an additional six months and given another opportunity to satisfactorily complete a period of clinical service; thus, complete her application.

Staff will forward the email submitted by ICD to Ms. Alholm (IERF) as she offered to assist the Board by providing an answer to ICD’s question regarding grade conversions and clock hours.
